

Studying Issues

Problem:

Students in secondary education face a ton of problems with prioritizing time. Our solution is to provide users with an easy way to understand what class needs more study time than the others.

Who is experiencing this?:

Post secondary education Students

What is the problem?:

Time to study is slim and people do not know what to study for.

Where does the problem present itself?:

Usually in secondary education; grades 6-12

Why does it matter?

It is very common for students to struggle with time management when prioritizing their studies. This could cause a decrease in grades and an increase in the stress level of students which could easily be prevented with simple knowledge of how to maintain a stable balance between classes.
